

# Digital eCommerce Mastery

## Introduction

The eCommerce Mastery Certification is designed for those who want to build digital startups in local or international markets. Entrepreneurs who want to build startups and/or those who want to come up with startup ideas, learn strategies and market their brand. If you are a service provider or want to provide business consultation services, this certification is for you.

In this certification, you will learn about eCommerce marketplaces, their potential, business cycle, product research and uses of tools, effective strategies for sourcing and logistics, order management & customer support, report handling, marketing & awareness through social media channels and most importantly, financial management of your business. Build your own online store in Pakistan or anywhere and begin your entrepreneurial journey to generate substantial income that brings change to your life.

## REQUIREMENTS:

- This certification is created for beginners (Min. 16 years older) who are looking to either get started with eCommerce or improve their existing eCommerce businesses
- Must have a strong desire to build a Passive Income Business through eCommerce
- A computer with an internet connection

- Must have the proper mindset and be willing to take action
